

Luna Quick install

IP44

- Luna is an adjustable GU10 downlight with rear mounted light source, approved for installation directly in insulation and flammable material.
- Screwless cable relief and wire mount in terminal box, ensures a quick and easy assembly with minimal tool utilization.
- Fastening with screws.
- The height of only 63 mm makes it possible to mount Luna in most installations.
- It is possible to mount with cable or 16 mm flexible tube.

Elegant!
- Also when tilted
