

Clara

- Clara is a LED luminaire with and without HF sensor, for ceiling and wall mounting.
- Clara has an IK class of 10 and is an ideal luminaire for mounting in storage rooms, utility rooms, workshops, etc.
- Clara 11301 and 11303 has a hidden HF sensor and can be adjusted with lux, distance and time delay.
- It is possible to connect several Clara luminaires with/without HF sensor, which turns on when the HF sensor is activated in a "master" luminaire.
- Spacers can be purchased for visible cable installation.

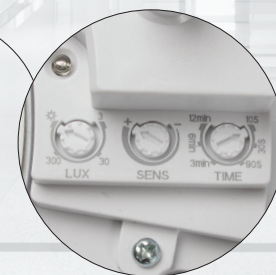

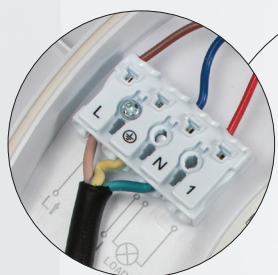

Clara with HF sensor

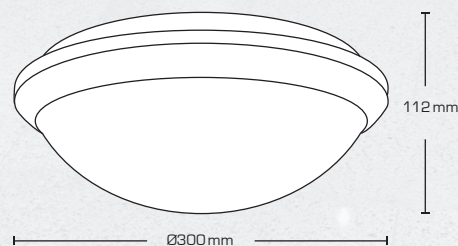

Possible option for HF sensor with slave function!

Good light distribution
