

Sabina

- Sabina is an adjustable, flicker free LED downlight with high light output and high color rendering. Approved for installation directly in insulation and flammable material.
- Minimal glare (UGR19) due to the retracted LED chip and reflector.
- Screwless cable relief and wire mount in terminal box, ensures a quick and easy assembly with minimal use of tools.
- Driver can easily be separated from the luminaire, which can be an advantage when painting.

Unique lighting comfort!

Flicker free!

Elegant! - Also when tilted
